He should go far!

Living beside Southampton water and watching the liners coming and going has doubtless prompted many to seek their fortunes in shipping.

One with thoughts on the future is Nicholas, aged 8-10 years, who has written to our Passenger Manager:—

"When I grow up I intend to borrow money from the bank and buy a shipping line then pay the fares into the bank and I will keep what is left over.

"Can I join your Line, please, when I have finished my prep. school and my Public School?"
