

# Life with the Bowaters

*T. R. Seddon, radio officer, took these pictures whilst on Nicolas Bowater during the 1968/69 season. Top view records a rare occasion when the Nicolas was seen in the Mediterranean: here she leaves Savona, Italy, on charter from Charleston to Savona and La Spezia. Centre: back across the Atlantic—We see a few of the hundreds of Liberty ships in moth balls in the Chesapeake Bay. At foot of page, the bridge at Alexandria, near Washington D.C., opens well in advance to let Nicolas Bowater go through*
