

### THE LAUNCH OF THE "ROTHESAY CASTLE"

*Above: Lady Cayzer presenting a junior apprentice with a buttonhole from her bouquet*

The *Rothesay Castle*, one of two new refrigerated cargo liners for the Union-Castle Line, was launched by Lady Cayzer at the Carlsdyke Yard of the Greenock Dockyard Co. Ltd. on 30th December, 1959.

The *Rothesay Castle* is the second of a new type of vessel ordered by the Company, and her sister ship, the *Rosherwick*

*Castle*, launched last August, completed her sea trials and sailed from Middlesbrough on 29th December for the Continent. She left London for African ports on 13th January.

Fuller details of these two new vessels were recorded in the September, 1959, edition of *The Review*.
