Stanley Mills (left) being congratulated on his award by Mr. R. Gemmell, Chief Engineer of Good Hope Castle

22-year-old Junior Engineer Stanley Mills, described by his college principal as "a reliable and conscientious craftsman who could be trusted for any job", is the first winner of the Ald. Thomas Lewis Memorial prize for the student outstanding in marine engineering study at Southampton College of Technology.

The award was presented on *Pen-dennis Castle* by Professor E. T. Davies,

Chairman of the College Governors, who were meeting for the first time on board ship; they were welcomed to the vessel by Mr. R. Munton, Technical Director.

Stanley Mills, a former Assistant Scoutmaster in Southampton, first went to sea in *Clan Macgillivray*; he is now serving in *Good Hope Castle*.
