

■ When Southampton Castle dry docked in Durban recently CLANSMAN local contacts went along to get this unusual shot of her . . . with an appropriate notice board.

■ Captain R. Hart of B&C speaking at the British Ship Adoption Society's annual general meeting held on November 17, 1970 on board HQS Wellington, London. On his right Sir Leslie Bowes, Christopher Chataway (Minister of Posts and Telecommunications) and Dr. H. Briault in the chair, who was replacing J. A. MacComochie.

■ Above left: Mrs. Aris presenting a picture of Windsor Castle to cadet captain K. Hill for use in the new Plymouth Nautical College. Standing holding the picture is W. K. Mabbett with L. A. Broomfield, superintendent engineer, sitting on the right. And above right: Group cadets standing in the grounds of the Merchant Navy Hotel, Lodge Road, Southampton. Left of the picture is L. A. Broomfield, in the centre W. Currie, assistant warden and tutor at the Plymouth College, and his wife. W. K. Mabbett is on the extreme right.

Cadets visit Southampton

On November 26 and 27 the group's engineer officer cadets training at Plymouth visited the Southampton dock office where arrangements were made for them to visit the *Windsor Castle* and *Good Hope Castle* in dock at that time, and also to see the dock installations embracing the container berth at the new dock and the adjacent dry dock.

During the visit the cadets were entertained in the Tendimus Restaurant and at the Merchant Navy Hotel, Lodge Road, Southampton, where they were met by D. and Mrs. Aris and the superintendent engineers and their wives of the Southampton office. One of the group's *Windsor Castle* pictures was presented to the cadets for use in the new Plymouth Nautical College, reports W. K. Mabbett, senior superintendent engineer.

Warsash promotions

Engineer cadets A. C. Chivers and A. Carmichael, who joined the company on September 18, 1970, have been promoted to senior cadet captains at the School of Navigation, Warsash.

Trinity appointment

Captain M. P. R. Turner has been appointed a Younger Brother of Trinity House and also a Fellow of the Meteorological Society.

Birth

We congratulate D. Warren, extra second engineer officer, and his wife on the birth of a 7lbs 2oz daughter Alison Jane, on December 4, 1970.

Subscriptions: no change

CLANSMAN would like to thank those readers who have recently offered to offset higher costs by paying magazine postage. Their support is greatly appreciated, but no extra postage charge is to be levied.

We are glad to say there will be no change in subscriptions for 1971. Reminders and collection will go ahead as soon as UK postal conditions permit.
